(END PAGE)

1.5.8. Operating Instructions. The contractor shall develop an Operating Instruction (OI) for internal circulation control, protection of resources, and to regulate entry into Air Force controlled areas during normal simulated, and actual emergency operations. The OI shall be written in accordance with AFI 31-209, and AFH 31-223, the local base Operations Plan usually referred to as an OPLAN, and AFI 31-210, the USAF Anti Terrorism Program and coordinated through the SSEO.

1.5.9. Entry Procedures for Controlled Areas. For on-base cleared facilities overseen by the base SSFO, contractors shall comply with the National Industrial Security Program Operating Manual (NISPOM), previously referred to as the Industrial Security Manual (ISM), to implement controlled area requirements. The SSFO shall approve the establishment, construction, and modification of all contractor designated controlled areas before they may be used to limit access.

1.6. HOURS OF OPERATION. Maintenance operating hours established by the contractor shall be consistent with meeting the contract performance requirements and/or as directed by the CO.

1.6.1. Normal Hours. Normal duty hours for the Maintenance Staff Offices shall be 0730 - 1630 hours Monday - Friday.

1.6.1.1. Work hours for supporting the maintenance functions shall be based on mission requirements. The contractor shall provide sufficient manning to support normal student training schedules. Note: Normal Training mission hours are from 0700 to 1600 hours Monday through Friday; however, the contractor may be required to support exercises, evenings, weekends, and holiday events/training, etc., as directed by CO at no additional cost to the Government (Ref: TE-2 for workload data).

1.7. CONSERVATION OF UTILITIES. The contractor shall instruct employees in utilities conservation practices. The contractor shall be responsible for operating under conditions which preclude the waste of utilities.

Subject: Contract Hours for School

RoseMarie,

Talked to Mr. Ted Davis this morning, as you know the hours for the schoolhouse are going to be permanent 0700-1600. The contract needs to be moded stating those new hours. I believe the paragraph in the contract that needs to be changed is 1.6.1.1. I also believe that all other wording needs to stay the same in those paragraphs.

We should be able to tell the contractor the new hours and tell him that there is a no cost change to the contract forth coming. We do not want to direct him what hours to work. That is his call. We just want to let them know that we are changing the contract to reflect the new hours.

Training groups switch to yearlong training schedule

Sheppard's training groups switch to a yearlong training schedule June 5. Classes on S-shift run Mondays through Fridays from 7 a.m. to 4 p.m. with retreat at 4:30 p.m. Other shifts will also be adjusted with T-shift beginning at 4 p.m. and A-shift starting at 11 p.m. The change was implemented to ensure the technical training students are given enough time to sleep and eat prior to marching to class. To comply with the change, Sheppard's physical conditioning times will also change. Roads will be blocked between 9-10:30 a.m., and from 4:45-

5:50 p.m., Mondays, Wednesdays and Thursdays. The PC route itself is unchanged, only the times for the afternoon run has changed.

The PC route begins on F Avenue between Bldgs. 516 and 526. From this point, students head north along F Avenue until they reach 8th Street. The route then turns right and proceeds east along 8th Street. Upon reaching G Avenue, students turn left and proceed north along G Avenue. When the runners reach 9th Street, they turn right, and proceed until they reach J Avenue. After that, the students turn left and pro-

ceed north until reaching 10th Street. Students then head east on 10th Street and move onto K Avenue. During both runs, the route flows onto the inactive taxiway upon reaching the base aircraft control tower. After reaching the end of the taxiway, near Bldg. 2010, the students follow the route back to the beginning. Drivers going from one side of the route to the other can do so on 5th Avenue or any other street south of 5th.

Security police stress the PC route is off limits to all motor vehicles, except emergency vehicles.

If you would please check Raytheon's CBA. I don't know if it specifically addresses hours of operation or not. I don't think it would be a player if we wanted to modify the contract per se', unless they request an equitable adjustment to the contract because of it.

With the school starting class at 0700 vice 0600, should we ask Raytheon to adjust their work schedule from

0600-1500 to 0700-1600. If so, are there any implications with Raytheon's CBA with the Union? I also think Raytheon's swings shift in AGE would have to slip an hour as well. Any thoughts?

HI: didn't realize that I was going to end up being the POC for this but.... attached is what I have as the year long schedule. (I had to hand type this because I didn't have the original). I don't have the dinning hall part to this yet as they are still negotiating what can and can't be done. Tomorrow in the paper we will announce we are going to an S shift schedule of 0700-1600 to allow students time to sleep until 0500 in the morning. The agencies below work for your groups--you just need to be aware that we are shifting our schedule--so you may need to shift your support of students to the times they are available. Also for the training groups--you need to let your employees know that this will be the new schedule--I am working to get a letter out that will say the same. Joy

Joy -

Sgt Schmitt brought this information to my attention. I know Col Caudill was appointed the POC for the change, but I don't know if any coordination was done in these areas before being handed off. It may be a case of the news not making it down to the worker level, but it may be a case of a lack of coordination.

I suggest you start asking these questions to Gary and try to scope the problem.

Sir,

I went on a fact finding mission and found the following, PA has the article denoting the schedule change and it will run next week. There seems to be a problem with some of the organizations that service the airmen.

Student Assignments will close at 1700 but I'm being told that they close the doors at 1630.

Student Finance hasn't made a decision yet, they currently close at 1630.

Student Health said due to staffing problems they will continue their 0730-1630 schedule.

SATO will close their doors at 1630.

TMO closes at 1645 Monday-Thursday; Friday 1630.

Guard and Reserve will close their doors at 1630.

Legal Office closes at 1630, however, for their notary service they must be there by 1600.

ADC closes at 1630 and currently plans to stay with that.

Dental clinic will close at 1630, they were not aware of the change.

These are the places that I can think of, if you can think of any others that I need to check please let me know.
Thank you for your time sir.

Hi: didn't realize that I was going to end up being the POC for this but.... attached is what I have as the year long schedule. (I had to hand type this because I didn't have the original). I don't have the dinning hall part to this yet as they are still negotiating what can and can't be done. Tomorrow in the paper we will announce we are going to an S shift schedule of 0700-1600 to allow students time to sleep until 0500 in the morning. The agencies below work for your groups--you just need to be aware that we are shifting our schedule--so you may need to shift your support of students to the times they are available. Also for the training groups--you need to let your employees know that this will be the new schedule--I am working to get a letter out that will say the same. Joy

Joy -

Sgt Schmitt brought this information to my attention. I know Col Caudill was appointed the POC for the change, but I don't know if any coordination was done in these areas before being handed off. It may be a case of the news not making it down to the worker level, but it may be a case of a lack of coordination.

I suggest you start asking these questions to Gary and try to scope the problem.
Marlon

Sir,

I went on a fact finding mission and found the following, PA has the article denoting the schedule change and it will run next week. There seems to be a problem with some of the organizations that service the airmen.

Student Assignments will close at 1700 but I'm being told that they close the doors at 1630.

Student Finance hasn't made a decision yet, they currently close at 1630.

Student Health said due to staffing problems they will continue their 0730-1630 schedule.

SATO will close their doors at 1630.

TMO closes at 1645 Monday-Thursday, Friday 1630.

Guard and Reserve will close their doors at 1630.

Legal Office closes at 1630, however, for their notary service they must be there by 1600.

ADC closes at 1630 and currently plans to stay with that.

Dental clinic will close at 1630, they were not aware of the change.

These are the places that I can think of, if you can think of any others that I need to check please let me know. Thank you for your time sir.
